

## GUNKUL Acquires ฿48.5m Solar Rooftop Project from EGAT, Booking 8.5bn of Backlog in Total

วันที่ 29/10/2019

*GUNKUL acquired Solar Rooftop Project from EGAT worth 48.5 million baht, booking 8,500 billion of backlog in total.*

**Ms. Sopacha Dhumrongpiyawut**, President of Gunkul Engineering Public Company Limited (**GUNKUL**), has revealed that the Electricity Generating Authority of Thailand (**EGAT**) has approved Gunkul Power Development Company Limited, GUNKUL's subsidiary, to start the purchasing and installation of solar rooftop project at a total capacity not less than 580 kW.

The agreement with EGAT also includes the Battery Energy Storage System (BESS) at EGAT's central bureau on an area of 300 rai with a total value of the project at **48,501,458.44 baht**.

Moreover, the company also aims to participate in the bidding for more projects from the Provincial Electricity Authority (**PEA**) and EGAT for the remaining of this year such as

- 1) Management of transformer system worth **150 million baht**.
- 2) Bypass Cable Truck worth **200 million baht**.
- 3) Submarine communications cable from the mainland to Koh Samui worth **1,700 million baht**.
- 4) Submarine communications cable from the mainland to Koh Tao worth **1,400 million baht**.
- 5) Submarine communications cable from the mainland to Koh Panyi worth **200 million baht**.
- 6) Metropolitan Electricity Authority's underground communications cable project worth **1,400 million baht**.

All the upcoming bidding could be the drive to increase GUNKUL's revenue growth this year while the company currently has a total of **8,500 million baht** worth of backlog, giving GUNKUL confidence that the revenue and profit growth will meet its objective at **25%**.
